

OUR CONTRIBUTION TO SUSTAINABILITY

IBC Recycling Program

At Southern Container, we are committed to a sustainable future. Through our IBC Recycling Program, we support our customers in meeting their Environmental, Social, and Governance (ESG) standards, while addressing the pressing need to reduce single-use plastics.

Our program includes the responsible disposal of used totes while producing a more cost-effective industrial packaging solution. With complimentary pick-up and secure storage of used totes, we eliminate any environmental liability associated with elemental exposure, providing our customers with peace of mind and reinforcing our dedication to environmental stewardship.

HOW IT WORKS

COLLECT

Schedule your IBC pickup with our online ticketing system, e-mail, or call in. Our team will dispatch a driver for pickup of your empty container.

COLLECT

CLEAN

Upon arrival in our reconditioning facility in Dalton, Georgia, the used totes will be cleaned or re-bottled.

CLEAN

REUSE

REUSE

The certified reconditioned totes are safe for reuse and distributed to our customers.
